### Widow of Elijah Hammond Gets Judgment Against Coal Company.

Circuit court is yet in session and will continue next week. The grand jury adjourned for the term on Saturday last after having examined 1139 witnesses and found 47 indictments. This is the smallest number returned for several terms. Another notable feature was the failure to return a verdict for any felony. The cases against Henry Loar, charged with defacing saw logs, and the case against the coal company, were again continued, and special Judge Kirk notified the commonwealth that the cases would go off the docket if it was not ready next week.

In motion of the Commonwealth's attorney the indictments against William C. Wiley, of Paintsville, were returned, and the cases will be returned to the grand jury.

Widow of Elijah Hammond, of Louisa, obtained a judgment against the Louisa Coal Company for \$2000 for the death of her husband while in the employment of the defendant company. Kirk and the cases against Henry Loar, charged with defacing saw logs, and the case against the coal company, were again continued, and special Judge Kirk notified the commonwealth that the cases would go off the docket if it was not ready next week.

### DIED AT NEW CUMBERLAND.

The many friends of Mr. and Mrs. Dave Holley, of New Cumberland, W. Va., will regret very much to learn of the death of their little daughter, Hattie Frances. Hattie Frances was born Sept 8, 1912, and on Saturday April 5, 1913, her spirit went back to God who gave it, and who said suffer little children and come unto me. It is so hard for us to understand why little Frances should be taken from us. God's ways are not our ways, and He in his wisdom knoweth best. Besides a heart-broken father and mother, she leaves to mourn her loss, a little sister and brother, Bessie and Willie, and a host of other friends and relatives.

## WILL BUILD WALL.

Catlettsburg does not intend to again be caught napping at flood time, or to suffer any loss from high water that can be avoided by preventive action.

At a meeting of the city council, held, at which Mayor Montague, all the councilmen and many citizens and city officials were present, it was decided to take steps looking to the erection of a retaining wall from East Division street to the Big Sandy locks, for the protection of a large part of the city which suffered immensely some weeks ago on account of inundation which resulted from waters breaking through the gap between these two points.

The War Department, at Washington will be petitioned immediately on behalf of the citizens of Catlettsburg, by a committee which has left for the national capital.

Competent engineers declare that such a wall as that proposed would have saved Catlettsburg an immense part of the damage suffered in the recent flood, had it been in place at the time.

## EXPECT A FINE MEETING.

The revival services announced for the M. E. Church South promise to be of an interesting and successful character. They begin on Sunday next, having been preceded by a week of prayer which began on Monday night last, continuing through the week. On Thursday night the service was conducted, at the request of the pastor, by Rev. C. B. Plummer, of the M. E. Church. On Monday night next the evangelistic singer, the Rev. W. B. Corder, of the M. E. Church South, will be here to take charge of and conduct the singing. Mr. Corder is an able singer and a preacher of ability. He has been a pastor of the Ashland church, with other churches, but is successfully devoting his time and talents to evangelistic work.

During the continuance of the services the meetings of Prof. Kenison's Bible class will be suspended.

## THREE-MILE BRIDGE.

### Contract Let for Constructing Big Railroad Bridge Near Louisa.

The NEWS has information to the effect that the contract for the construction of the C. and O. bridge across the Big Sandy river at Walbridge has been let to Langhorn & Langhorn, and that the Louisa Contract Co., composed of Henry Preston and C. B. Crutcher, will do the concrete work. A corps of C. and O. engineers has been on the ground for several days, laying out the site where the bridge will be built.

This is to be quite a large bridge. The cost complete is said to be not far below \$200,000. It will be built sufficient for the heavy traffic that the great development now starting in the Big Sandy valley will demand for many years. The bridge will cross the river at a slight angle, so as to avoid the tunnel and heavy curve now in use.

### Charged With Stealing a Horse.

Henry D. Drake is under arrest at this place, charged with stealing a horse from Guilford Diamond, who lives near this city. The horse disappeared on Wednesday night of last week and Drake was suspected. On Saturday morning Mr. Diamond learned that Drake had sold the horse to Ben Maynard, of Donthan, and had cashed the check in Williamson, W. Va., at the store of D. Brown. Mr. Brown recovered his money from the young man before he was arrested later in the day.

Drake is considered somewhat deficient mentally and a good deal of sympathy is expressed for him. The examining trial has not been held.

### COMPROMISE SETTLEMENT.

For failure to deliver in time a telegram sent from Virginia by Mrs. W. D. Pierce to her husband, Mr. W. D. Pierce, of this city the latter brought a suit against the Western Union telegraph company for damages. Compensation was effected by the payment of one hundred dollars.

## DR. FRIEDMAN'S DISCOVERY.

The visit of the great scientist, Dr. Friedman, to this country, and the introduction of his remedy have created such profound interest that the unfair treatment which he has received in some quarters has caused much feeling in his behalf. The following from the Hopkinsville, Kentuckian puts the case fairly:

The country is waiting with growing impatience for the Bureau of Public Health to make a report on the Friedman tuberculosis culture submitted to its designated surgeons on March 8. The impression is growing that Dr. Friedman is having to fight prejudice backed by the authority of the government in the introduction of his remedy. Those acting for the Department of Public Health make the entirely unreasonable demand that Dr. Friedman turn the secret over to them as a condition of the right to use it in the United States. This hard bargain is being driven with the German scientist, although the country is being flooded with other so-called cures that are being sold to a gullible public apparently without the government's approval. A great many people believe that Dr. Friedman's remedy has positive merit. No one charges that it is harmful. Sufferers are begging to be allowed to buy it and the United States government should see that a proper decision is made in so important a matter at once, if it is necessary for Congress to act.

### A Former Louisa Girl Married.

On Saturday last, April 19, Miss Charlotte Freese, formerly of this city, surprised her relatives by becoming the wife of Mr. W. W. Vanaudall, a promising young business man of Cincinnati. Mr. Vanaudall had paid Miss Freese marked attention for several months, but the marriage was unexpected. The groom is a member of a well known Hamilton, Ohio family, and is highly esteemed by all who know him. The bride is a native of Louisa, being the youngest daughter of Mrs. Kate R. Freese and the late Capt. Milton Freese, in his lifetime the foremost steamboatman in this valley and for many years a prominent business man in this city. She is a sister of Capt. Frank Freese and Mrs. G. W. Wroten, of Louisa. Mrs. W. T. Headley, of Philadelphia, Mrs. J. C. Thomas, of Toronto, O., and Mrs. Robert Magee, of Hyde Park, O. She is very handsome and accomplished, being a pianist of more than ordinary ability.

### ARNETT ACQUITTED.

Clarence Arnett, of Magoffin-co., was acquitted by a jury in Montgomery Circuit Court, the jury being out thirty minutes, but agreeing on the first ballot. He was charged with conspiring with his brother, Ernest Arnett, and R. C. Mannix to kill Lee Patrick, who was stabbed to death in a pool room last September.

### UNUSUALLY BUILDINGS.

The attention of those concerned is called to the presence of some very unsightly buildings which clutter the lot on which the Masonic Hall stands, and which have long been an eye sore to the public. Those who have the control of the premises should order the removal of these structures at once.

### DEATH OF WAYNE CO. MAN.

Ad. Crum, aged 74, a well known citizen of Wayne-co., died on the 15th of this month at his home on Twelve Pole. He had suffered quite a long time with softening of the brain which had materially affected his mind.

### WAS NATIVE OF THIS COUNTY.

Jarred Short, formerly of this county but for several years a resident of Boyd county, died Sunday at the home of his son, Jno. Short, of near Catlettsburg, after a long illness. The body was taken to Fallsburg for interment.

### SHOULD TAKE NOTICE.

In a short time the list of delinquent tax payers will be published in the Big Sandy News, and those who know themselves to be on the list should, if they want to avoid making it known to the public, walk up to the Sheriff's office and settle. This officer is compelled by law to make this publication.

## NO BOOTLEGGING

### Nor Carrying Liquor to a Friend in Dry Territory.

The Webb law passed by Congress a few months ago makes local option effective. It is now a very difficult and dangerous task to get liquor into dry territory. The railroads will not carry it, the express companies promptly quit delivering it when the law went into effect. Only disreputable physicians will be able to get any of the stuff into local option districts, and if the courts will do their duty this class of outlaws will soon be put out of business. The Webb law is what the temperance people have hoped for and prayed for all these years. It makes local self-government effective in handling this greatest of all evils. It is nothing more than the proper recognition of the same principle that constitutes "States Rights."

And now the Kentucky Court of Appeals construes a law of 1912 so as to make "bootlegging" impossible if the officers give any attention whatever to their duties.

The conviction of Isaac Pope, of Leslie-co., for carrying a bottle of whisky into local option territory to accommodate Robert Walker was sustained. The opinion was handed down by Judge Lassing, and as a result of its construction any person or corporation carrying intoxicating liquors into local option territory, even for accommodation, except common carriers to licensed druggists, are liable to a fine of from \$20 to 100 and from 10 days to 20 days in jail or both. The Appellate Court was unanimous in the opinion handed down by Judge Lassing.

Walker gave Pope \$1 to buy a quart of whisky. It was agreed that Pope got nothing for carrying the whisky, not even so much as a drink of it.

### ALLEGED SLAYER CAPTURED.

During a quarrel between Charles Reeves and Keith Queen while attending church near Rush, Boyd county in October last Reeves is said to have used a knife with effect upon Queen that he died in a short time after he had been cut. Reeves immediately fled and had remained at large until his apprehension on Saturday last near Russell. The capture was effected by Richard and "Happy" Adkins, cousins. He had for some time, under the assumed name of Frank Stewart, been running as fireman on the C. and O. between Russell and Covington. A reward of \$500 had been offered for his arrest.

The NEWS contained an account of the homicide shortly after it occurred. The victim was a relative of the Messrs. Queen, of this city.

### "A Dismal Sight Presented."

Some one sent a large package of lampblack by parcels post to Louisa, and when postmaster Hughes opened the sack which contained unexpected results ensued. The black stuff flew in all directions, obnoxious everything with which it came in contact. A line in "Meddlesome Mattie," describing in the old Second Reader the condition of the youngster when she opened the snuff box, was descriptive of the postmaster's plight: "Poor eyes and nose and mouth and chin a dismal sight presented." The entire contents of the sack were more or less soiled.

### AT THE PARSON'S HOME.

On Friday evening last a crowd of the relatives and friends of Drury Warder and Miss Anita Reed, of Fort Gay, came to this city, and after procuring the necessary papers from the county clerk they went to the home of the Rev. S. F. Reynolds, where, in a few minutes, he transformed Miss Reed into Mrs. Warder.

### Brought Here For Treatment.

Thomas Clifton, of Prestonsburg, was brought to Riverview hospital Tuesday to be treated for a compound fracture of one of his legs. He received the injury when he jumped from a moving train near Prestonsburg, as related elsewhere in the NEWS.

## VINSON—VIRTS.

A wedding of much interest took place last evening, the announcement of which came as a complete and charming surprise to the friends of both bride and groom, who, with two or three exceptions, were totally unaware of the matrimonial intentions of the principals. The bride is Miss Ada Lee Virts, one of the most admired and accomplished young ladies of this city, and the groom Rev. John L. Vinson, pastor of the Liberty-st. church and of the Wesley Methodist Episcopal Church, South, on the Inter-Urbain. The ceremony was performed at nine o'clock at the home of the Misses Virts on Latrobe-st. in the presence of some twenty-five or thirty friends, who were most closely associated in church work with the bride and groom.

The happy groom, Rev. John L. Vinson, is one of the well known and highly respected ministers of the city and of the M. E. South Conference. He is the son of Mr. and Mrs. L. F. Vinson, of Glen Hayes, W. Va., and graduated with honors from the Morris-Harvey College, of Barboursville, W. Va. For the past three years he has been located in Parkersburg at the Liberty-st. church, where he is much beloved by the members of his congregation and greatly respected by the entire community. He is an eloquent speaker and is earnest and energetic in his clerical labors.—Parkersburg Sentinel.

### LOST LARGELY.

The family of Mr. J. C. Layne, of Guyandotte, suffered much from the recent flood in the Ohio valley. The water reached the second story of their home, from which they were taken in boats to a place of safety some distance away. Mr. and Mrs. Layne recently celebrated their golden wedding and in preparing for that notable event had re-furnished their house in handsome style. They had received many valuable presents at the happy occasion, and many of these floated off into the angry flood.

## MRS. CHAS. HOLBROOK.

### Tuberculosis Prematurely Removes a Young Wife and Mother.

On Monday morning last the beloved wife of Charles Holbrook died at her home at Blaine after a long illness caused by tuberculosis. She was buried not far from her home the following day, after appropriate services which were conducted by the Rev. J. W. Critch, of this city. Mrs. Holbrook was 31 years old and is survived by her husband and four young children, the oldest being only 11 years old. She left two brothers, J. P. Martin, of this city, and Elijah Martin, of Blaine. She is also survived by one sister, Mrs. L. Funk, a well known worker among the children of Chicago. Mrs. Funk was not able to attend the funeral of her sister.

Mrs. Holbrook was a most estimable woman, and her death at the early age of thirty-one years is greatly deplored by all who knew her. She was a devout, consistent Christian, a member of the Methodist church, and lived according to the faith she professed. She was an affectionate and devoted wife and mother. Blameless in life, triumphant in death, she has entered into peace and joy eternal.

### KERNIT OIL FIELD.

The oil boom at Kernit in this county is a sure go, the experts say. The Standard Oil Company is on the ground and is attempting to smother up everything as usual, but it is an open secret that the oil is there in large quantities. This is the opening of a great future for this section in oil as well as gas and the interest now being manifested by experts in this section go to show that we are rich in oil and gas as well as coal.—Williamson News.

While in the city Jake bought a large amount of goods to replenish the stock which was almost entirely exhausted by his recent big special sale. It was one of the most successful sales he ever held.

## Ky. Educational Association.

The Lawrence county teacher who fails to attend the coming meeting of the Kentucky Educational Association at Louisville will miss a splendid opportunity for improvement in his chosen profession. Nothing which could help to make the occasion profitable to the visitors will be omitted from the programme. The small expense necessary will be compensated for by a 4-fold harvest of mental gain. The NEWS urges every teacher to attend the meeting, even if going involves personal sacrifice. Look at the programme and see what you will miss if you fail to attend.

As an additional feature of the annual convention of the Kentucky Educational Association in Louisville, April 30 to May 3, an "educational special" may be run to Mammoth Cave. For some time officers of the association have had the matter up with railroad officials.

Secretary T. W. Vinson has just been notified that, if a sufficient number of persons wish to make the trip a rate of \$3.00 both ways will be given. If the special is run to the cave it will be at noon Saturday, in all probability, as President McFarland and other officers do not wish festive features to interfere with the regular programme any more than necessary.

Friday afternoon and evening, May 2, the teachers and educational leaders who will be in the city, have agreed to accept the hospitality of the Louisville Convention and Publicity League. Otherwise they will have their entire time taken up from Wednesday to Saturday at noon considering problems of educational development. Delegates wishing to visit the cave will have ample time at the close of the convention, as the railway tickets will have a five-day limit, it has been announced.

From the time of the delivery of the annual address of President McFarland at the opening session Wednesday afternoon alone there will be eleven departmental meetings.

These departmental meetings will be for school trustees, for city superintendents and school boards, for high schools, for languages, for mathematics and science, for child study, for music, for history and civics, for home economics, for commercial education, for agriculture and horticulture.

With the exception of Friday sessions also will be held each evening when there will be addresses by educators of such wide repute as Dr. William L. Bryan, president of Indiana University, and Dr. Frank W. Gunsaulus, president of the Armour Institute of Technology.

The programme bears testimony of the more practical tendencies of educational development in Kentucky. One cannot help noting a remarkable change since the days when the "three R's"—reading, 'ritin' and 'rithmetic"—held almost complete sway.

For example, one will have opportunity to hear Col. Henry M. Exall, a Texas business man, tell how an entire State is learning to grow better crops; to learn how a practical Kentucky horticulturist is accomplishing great things in a fruit-growing way; how girls are learning to become good housewives; to make their own hats; to do their own sewing and cooking; how boys are learning to become good farmers and mechanics and business men, instead of receiving training planned principally to fit them for entrance to institutions of "higher learning" and professional careers.

Not only that, but more emphasis is to be laid on problems of school administration. For the first time in the history of the State school trustees will meet, organize and discuss problems that confront them, as well as superintendents and teachers.

### GOULD HUTCHISON KILLED.

The Louisa relatives of J. Gould Hutchison were shocked Thursday morning by the intelligence of his death caused by an accident which occurred Tuesday evening. Mr. Hutchison was an engineer on the B. and O. railroad, had the run between Huntington and Parkersburg. The exact place of the accident was not mentioned.

Interment will be made at Catlettsburg Saturday. Mr. Hutchison was a son of the late Rev. I. B. Hutchison, formerly of Louisa. He was a widower, his wife having died about a year ago.

## HOME CIRCLE COLUMN.

COLUMN DEDICATED TO TIRED MOTHERS AS THEY JOIN THE HOME CIRCLE AT EVENING TIDE.

## Unity In The Home.

The happiest place on earth should be the home. A place of rest and refuge, of peace and pleasure, of love and joy. A home is all this where the family is united, having the same purpose and working for the same end. There is not only strength in unity, but blessings unnumbered. Family unity is the basis of family prosperity, as national unity is the basis of a nation's prosperity.

It is unity that makes the happiness of a home. One discontented disloyal member can spoil the peace of a household and make a place of torment where paradise should be.

There are many sins we can and must forgive, but disloyalty to father or mother, sister or brother, is the act of a traitor and should be despised as such. If those who belong to us have faults, let us hide them in our hearts that the world will not find them out. If misfortune comes to the one member of the family, let all share it and help the unfortunate one to keep a proud face to the world. Let us be true to our own. Loyalty in friendship has been the theme of poets, but loyalty to the home and household is the fairest of virtues and covers a multitude of faults and follies.

Sorrow came to you yesterday and emptied your home. Your first impulse now is to give up and sit down in despair amid the wreckage of your hopes. But you dare not do it. You are in the line of battle and the crisis is at hand. To falter a moment would be to imperil some holy interest. Other lives would be harmed by your pausing. Holy interest would suffer should your hands be folded. You must not linger, even to indulge in your grief. Sorrows are but incidents in life and must not interrupt us. We must leave them behind while we press on to the things that are before. Then God has so ordered, that in pressing on in duty we shall find the truest, noblest comfort for ourselves. Sitting down to brood over our sorrows, the darkness deepened, creeps into our heart and our strength changes to weakness. But, if we turn away from the gloom and take up the duties and tasks to which God calls us, the light will come again and we will grow.

When all our hopes are gone, 'Tis well our hands must still keep tolling on for other's sake. For strength to bear is found in duty done, And he is blest who learns to make The joy of others cure his own heartache.

One who has been keeping tab on the conduct of boys writes as follows: Every boy and young man in town is spotted and when vacancies occur in offices and other positions of responsibility they do not go to those who hang around public places and put in their time smoking cigarettes, aping the styles of dudes and mashers, but to the lad who has a clean record of sobriety, industry and honesty, or one who will do all

in his power for his employer. A straight, clean, manly boy who never had to hunt long for a job. He is always wanted.

## Business For Girls.

According to the recent census, it appears that there are nearly a third more females in this country than males; so of course there are not husbands enough to supply the demand. Under this state of affairs there is nothing left for the girls to do but to change their tactics; instead of spending their time and energies in fascinating the beaux, set themselves to work and earn their own livelihood. They can do it, too. Let them calmly and decidedly make up their minds that there is a work in life for them to do, and that they do not propose to throw themselves as martyrs into the matrimonial market to be disposed of to the highest bidder.

If girls have a good, comfortable home, it is far better to abide there, if they can find anything to employ their time and energies, than it is to go among strangers and fight their way. As long as they have a mother to love them; it is well to keep her for in no place can purer happiness be found; after she is gone there will be time enough to buffet the storms of life in the wide world.

A girl can be independent if she chooses, and earn a comfortable living many ways, and it is not the worst misfortune in life to be born a girl; not half as bad as it is to be married to a man that you can neither love nor respect, who makes you a perfect slave to pander to his comfort and humor his caprices. Think well before you make your choice of business.

Signed, GRANDMOTHER.

## BUCHANAN.

I have written these lines, dear Sister Burns, with the hope of comforting your sorrowing heart, which was made to cloud by the death of your affectionate husband, M. D. L. Burns:

Weep not for me, dear loving wife, For I am safe at home; No sorrow here, no care, no strife To make me weep and mourn.

It was hard to take my leave of thee My heart was knit to thine; But Jesus bid my soul to flee From earth to this bright clime.

His loving call I have obeyed, I feel 'tis well I've come, Then oh, do not the Lord upbraid For what He's wisely done.

His every work is done full well, No defects in his plans, Then wait in silence till he tells Thee of His purpose grand.

He'll make it plain, thou need not fear,

Will read it clear ere long, For thou to him art sweet and dear, Fear not, in faith be strong.

Don't think thy work on earth is done, If so He'd call thee home, Work on, pray on, till death shall come And claim thee for his own.

Oh, do not weep for me, dear ones, But live for God alone, And when thy work on earth is done He'll bring thee safely home.

And when thou comest to this shore I'll meet thee, I assure, And welcome thee forever more To heaven where all is pure.

Then o'er this peaceful realm we'll roam With pleasure and delight, No sorrows here to make us mourn, No clouds of gloom and night.

MRS. MARY BERRY.

Friday, April 25, 1913.

Some one with a grim sort of humor calls Jackson the city of sudden death.

At a school house near Henderson in which 28 persons took refuge during the late flood, three sets of twins were born.

The Democratic Committee of Clark county declared against the use of money or liquor as a means of influencing votes in the August primary.

It is announced by the Postmaster General that all Republican postmasters will be allowed to serve to the end of the term, provided there are no charges against them.

The President has appointed Henry C. Breckenridge Assistant Secretary of War, and Robert W. Wooley Auditor of the Interior Department. Both men are from Lexington.

Unless the plan is vetoed by President Wilson Postmaster General Burleson purposes to carry out his idea of subjecting 52,000 fourth-class postmasterhips to civil service examinations.

J. W. Newman, Kentucky Commissioner of Agriculture, declared at the Southern Educational Conference that any farmer who depended on the commercial fertilizer would land in the poorhouse.

Congressman Stanley will open his senatorial campaign at Flemingsburg next Monday. The speech will deal in part with the record of former Gov. J. C. W. Beckham in railroad regulation in Kentucky and his opponent will be forced into a defensive campaign.

The Democratic Tariff Revision Bill, with its sweeping reductions and a lengthy free list, augmented by its income tax provision, was approved by the Democratic caucus. The bill will be reintroduced by Leader Underwood. Senate Finance members announced unofficially that no oral hearings on schedules would be permitted. The Administration, it is said, is of the opinion that Congress should be ready to adjourn July 15.

Since the adoption of the constitutional amendment requiring United States Senators to be elected by popular vote, Senator Bradley is reported to have written to Republican friends at various places asking their support for the nomination next year. Before the change in the method of election was made Senator Bradley had announced that he would not be a candidate for reelection. But he now hopes the Democrats will make a mistake in their choice of a nominee, in which event he wants a chance to profit by the error.

Moral: Let's not make a mistake. It is generally agreed that the situation in Kentucky is very materially changed by the new method of electing Senators. This is a good time for the Democratic voters to hold themselves in reserve and refuse to "line up" prematurely. Our nominee must be strong with the people of the whole State. No man should be nominated who has a lot of implacable enemies, or the handicap of bitter factional opposition.

### Boy's Corn Clubs of Lawrence.

There is a merry race in the Boy's Corn Clubs of Lawrence for the largest club in the county. At this writing upper Louisa leads all clubs of the county, being one ahead of Dobbins.

Dobbins is one ahead of Dry Fork, and Dry Fork is one ahead of Gambill.

Falls of Blaine and Twin Branch are tied for fifth place.

Do not forget that the president who has the largest club in the county receives a \$10 cash prize.

We are working our way over the county and expect to be on Blaine above the mouth of Hood this week.

I have received a letter asking me to come to Zella Saturday, Apr. 26.

I ask all persons interested in the Boy's Corn Clubs and road work of the schools to meet me at Zella, Saturday, April 26, at 2:00 p. m.

I have been in every election precinct in the county, but during the high waters some of the meetings were not attended.

Let us have concerted action and have Lawrence county well organized.

Your supervisor of corn clubs is on the Kentucky Educational Association program for an address on our work in Lawrence.

The association meets in Louisville on the last of April. There is but little time to work between now and that date, so I appeal to you for the sake of our county to help out in the work. Every patriotic citizen in "appointed a committee" to help. S. F. Smith, Tuscola, has been appointed president of the Catt election precinct club. Boys in that precinct wishing to join the club will see Mr. Smith. He has blanks, papers, etc.

All presidents will please send in the applications of members now in their possession. I want a complete report of the number of boys in the clubs before I go to Louisville.

Supervisor Corn Clubs.

Waiting doesn't pay. If you neglect kidney backache, Urinary troubles often follow. Act in time by curing the kidneys.

Doan's Kidney Pills are especially for weakened kidneys.

Many people in this locality recommend them.

Here's one case:

Dr. R. Fraisher, Fort Gay, W. Va., says: "I consider Doan's Kidney Pills the best remedy on the market for kidney and bladder complaint. I have prescribed this preparation in my case and at the present time six or eight of my patients are taking it with excellent results. I have taken Doan's Kidney Pills with satisfactory results and am loud in my praise of them. The residents of this vicinity suffer considerably from kidney and bladder trouble due to the poor quality of the drinking water. I have found Doan's Kidney Pills to be the one remedy that can be depended upon for relief. It has been my experience that all difficulties caused by weak kidneys such as irregular passages of the kidney secretions, gravel, dropsical swellings, lumbago, pains in the back and hips, etc., can be removed by Doan's Kidney Pills. A few doses of this remedy taken immediately when the trouble is noticed will save much misery."

It is the great independence day of the Jews and a number of ceremonies characterize its celebration. Matzos, the unleavened bread, the shin bone of the lamb, commemorative of the Paschal sacrifice; a roasted egg, a mixture of apples and nuts constitute the viands with which the Jews feast. Four cups of wine are required to be drunk by the participants in the family service called Seder to commemorate the four promises made by the Eternal to redeem Israel from bondage.

## KENTUCKY NEIGHBORS.

Whitesburg, Ky., April 18.—After a shut-down after the recent flood which swept the business section of Jenkins, the mining and shipping of coal has just been resumed.

The people of Cannel City will utilize its natural gas. Mr. M. L. Conley will have all the houses of the Kentucky Block Cannel Coal Co. piped immediately and the citizens, generally, will do likewise. Murray Seltz, of West Liberty, has the contract for the plumbing.

The Buddy Brewer oil well, on Stillwater, came in Wednesday morning at 3 o'clock and by daylight the oil stood 800 feet deep in the hole. The oil men claim that it will produce about ten barrels a day, but Mr. Brewer and others think it will do better than that.—Hazel Green Herald.

Joseph Desha Nickell, of Caney creek, Morgan-co., who is now 82 years of age, has fifteen living children, sixty grandchildren and sixty-four great grandchildren, all the daughters by his first wife, a Miss Freelove Jones, before marriage. That union produced 22 children, and by his second wife, who was Miss Armina Smith, he had one child, which died in infancy.

S. M. Bradley, who recently purchased a tract of land near the oil fields in Morgan-co., was surprised last Friday to receive word that the well in which they were boring for oil, they had struck an overflow of gas, said by scientists to be the best well in the state. Mr. Bradley, not willing to give the oil question up, is having another well put down near this one, and it is predicted that he will meet with success.

Winchester, Ky., April 18.—The Hon-Tomlinson Co., of this city, closed this week one of the biggest timber deals ever known in Eastern Kentucky. It represents thousands of dollars for something like 20,000 standing trees on Macy's creek, in Perry-co. The purchasers are Mowbray & Robinson, of Cincinnati, who have several saw mills in Eastern Kentucky.

A large force of counties and branders will be put to work at once on the lot. Messrs. Geo. Tomlinson, president of the company, and George Hon, vice president, are in Perry-co., this week arranging the details of the transfer.

Dr. J. A. Stucky, Dr. S. B. Marks, Miss Linda Neville, president of the Kentucky Society for the Prevention of Blindness, accompanied by three trained nurses, left Lexington for Hindman, Ky., Friday morning, where they will remain until next Friday or Saturday, holding the annual spring clinic at the Settlement School at that place. The party took the L. and E. to Hazard, where they

will spend Friday night, starting overland on mules and in wagons to Hindman, forty miles from Hazard. Their work will consist mainly of trachema and other eye diseases as well.

Stockholders of the Poplar Oil Co., were visitors Wednesday on the tract of land they have under lease on the Kentucky side of the river about three miles from Devon and they selected the location of a test well which is to be drilled immediately. These who made the trip were Judge John H. Holt and Attorney Harry Duncan, Jr., of Huntington, Senator M. Z. White and Mr. Alex Bishop, of this city. Gov. Hatfield is a stockholder in the company.

In addition to being an eminent jurist Judge Holt is also acquiring fame as a geologist and he was called upon to look over the rocks and select a location that will insure a 500 barrel gusher.

After locating the well Judge Holt spent several hours in Williamson, where he has a host of warm friends and admirers.—Mingo Republican.

Lewis Stoker, of Youngstown, O., represents an oil company at that place, which, through him, has leased in the neighborhood of 10,000 acres of land lying between Cannel City and Gillmore creek, for which they paid ten cents an acre rental. He said that in the course of three months there would be more oil wells in the territory contracted by his company than had been put down in this section up to the present. He thinks there is an abundance of the oleaginous fluid in that territory and says his company is going after it, even to the depth of darkness in China. Also, there are two other companies in his town both of which are as energetic as his own.—Hazel Green Herald.

Fidavy Dennis, about sixty years old, was shot and almost instantly killed by Dr. O. H. Motley at Ezel Saturday night about 8 o'clock.

Details of the affair were hard to get but from the best reports obtainable the shooting, which seemed to be the result of an old grudge was premeditated. Report has it that Motley had his pistol repaired in the afternoon, purchased cartridges and was waiting for Dennis to come out of a store where he was trading. When he came out Motley asked him if he was going to sing that little song about him any more. Dennis replied that this was a free country and he would sing when he pleased, whereupon Motley fired as Dennis was getting on his mule, the ball taking effect in the side below the right nipple. Motley was lodged in jail at West Liberty.

## WEST VIRGINIA NEIGHBORS.

Clarksburg, W. Va.—Maddened when he saw a man leaving his wife's apartments at the home of her mother this morning Everett Dois seized a shotgun and shot her dead. He then walked to the police station and gave himself up.

Smallpox, real smallpox on Pad-die creek. This report will scare several, no doubt, but dozens are dying yearly in the county of consumption and no one is excited about it. You need not be so afraid of smallpox it is curable, but be careful about consumption.

Washington, April 16.—The first presidential postmaster nominated by President Wilson in West Virginia was J. Garland Hurst, whose nomination to be postmaster at Harpers Ferry was sent to the senate today. Mr. Hurst was recommended by Congressman Brown some weeks ago and gave up his position in Washington to get his business in shape to take the office. He is appointed to succeed William L. Erwin.

Logan, W. Va., April 16.—Twenty-five hundred men are idle here in logging camps and coal mines as a result of the suspension of railroad traffic by the flood. On the C. and O. line between Logan and Huntington are more than a score of idle engines and crews, the result of flood conditions. Until the line is put in working order again, no coal can be shipped out, nor can a early resumption of traffic be expected.

The Coal and Coke Operator, devoted to the coal mining industry, pieces the following estimate upon the quantity of West Virginia coal: "West Virginia has 16,280 square miles of marketable coal; she employs 78,000 mine workers and is second in coal production in the states of the Union. At the present rate of production it will take over 1,100 years to exhaust the merchantable veins now in market, not calculating the immense undeveloped fields in remote sections of the vast deposits that may be reached by shaft mining."

James Brady, the well known democrat, and the present mayor of the town of Barboursville has won the endorsement of Senator William E. Chilton for postmaster at Barboursville, following a strenuous contest participated in by a half dozen or more democrats in the ex-county seat.

Information was received here yesterday to the effect that Senator Chilton had announced his decision in the matter and his recommendation will no doubt be acted upon favorably by the president and postmaster general. Brady has been one of the democratic leaders at Barboursville for several years.

He is the owner of a general merchandise store.

The battle for the Barboursville postmastership has waxed warm for several weeks. Among those who aspired to succeed the present postmaster, J. H. McComas, were Jas. Blume, Jas. Wilson and ex-Mayor Heffner. The Barboursville office is a fourth class office and the salary is \$1,000 a year.

On June 20 at 12 o'clock, noon, West Virginia will be exactly fifty years old. This event of course will be fittingly celebrated all over the state, the celebration centering at Wheeling.

Of interest in this connection is the fact that Mrs. Lucy (Knopp) Gardner, now living at Parkersburg, was probably the first child born in West Virginia. Her birth occurred simultaneously with the birth of the state on June 20, 1863, near Point Pleasant, Mason-co. If it is found that Mrs. Gardner was the first child born in the new state, she will be asked to attend and take a prominent part in the celebration at Wheeling.

It seems almost impossible that a man could fall 110 feet and still live, but such is the case.

J. P. Huff, of Soudan, Va., while working on the central span of the big N. & W. bridge last Saturday afternoon, was struck by a timber, called a "runner," and knocked off. He landed in the Ohio river, 110 feet below. He was not rendered unconscious and immediately began paddling to keep afloat until the people from the shore, who witnessed the accident, could reach him with a boat.

Mr. Huff is the fifth man to fall from the bridge in the past year. His escape from instant death is certainly miraculous.

Green Woolford, a fugitive from justice since he killed W. C. Calhoun at Vulcan last July, was captured Sunday on Peter creek by detective Eppling, of Thacker. When the officer appeared at his home Woolford got the drop on him with a Winchester, but through a clever ruse the officer extricated himself from his dangerous situation and landed his man.

For some time Woolford has been working in the head house of the Freeburn Coal Company. Eppling was given requisition papers for him soon after the killing and located him not long ago. Woolford observed his approach and barred the door of his house. Grabbing his Winchester he commanded Eppling to cross the creek and go back to the West Virginia side of the river.

Eppling took his good naturedly and replied that he was looking for another man. After some further talk Eppling walked away a few steps when he heard Woolford say, "I'll step out just to show him I'm not afraid." When he came out Woolford was carrying the Winchester by the barrel and seeing that it was not in shooting position, Eppling was able to get the drop on him. Mingo Republican.

## "BLOOD IS THICKER THAN WATER"

Without good red blood a man has a weak heart and poor nerves. Thinness of the blood, or anaemia, is common in young folks as well as old. Especially is it the case with those who work in ill ventilated factories—or those who are shut up indoors in winter time with a coal stove burning up the oxygen or emitting carbonic (poisonous) gas. This blood, or blood which lacks the red blood corpuscles, in anaemia: people may have been caused by lack of good fresh air breathed into lungs—or by poor digestion or dyspepsia. Sometimes people suffer intense pain over the heart which is not heart disease at all, but caused by indigestion. Whatever the cause, there's just one remedy that you can turn to—knowing that it has given satisfaction for over 40 years.

Miss Carrie New—"Isn't it too bad about Mrs. Blank's little boy? He fell in a steaming washboiler and was scalded."

Anty Drudge—"Yes, it is a pity. Why women will boil clothes, when it is not only dangerous, but a useless nuisance, I can't see. I must tell Mrs. Blank how much easier and better the can wash her clothes with Fels-Naptha in cool or lukewarm water without boiling."

**Have you the once-a-week backache?**

**Do you know what causes it?**

**Long, continued bending over a wash-board rubbing the clothes up and down.**

**What are you going to do?**

**Do your washing the Fels-Naptha way and Fels-Naptha Soap will loosen the dirt so that a few light rubs will take it out easily.**

**No boiling needed—only cool or lukewarm water.**

## FELT BAD ALL THE TIME

Shellhorn Lady Suffered a Great Deal, But Is All Right Now.

Shellhorn, Ala.—In a letter from this place, Mrs. Carrie May says: "A short time ago, I commenced to have weak spells and headaches. I felt bad all the time, and soon grew so bad I couldn't stay up. I thought I would die. At last my husband got me a bottle of Cardui, and it helped me; so he got some more. After I had taken the second bottle, I was entirely well. I wish every lady, suffering from womanly trouble, would try Cardui. It is the best medicine I know of. It did me more good than anything I ever used."

Cardui is a woman's tonic—a strengthening medicine for women, made from plants that act specifically on the womanly organs, and thus help to build up the womanly constitution to glowing good health.

As a remedy for woman's ills, it has a successful record of over 50 years.

Your druggist sells it. Please try it. R. B.—Write for Ladies' Advisory Dept., Cardui Medicine Co., Chattanooga, Tenn., for Special Instructions, and 64-page book, "Woman's Treatment of Women," sent in plain wrapper, on request.

## WOMAN DROWNED.

Mrs. D. B. Adkins Loses Her Life in Saving Her Sister.

Mrs. David B. Adkins, a Pike-co. woman whose home was at Mossy Bottom, was drowned at Mart, Va., just across the State line, last Sunday morning, while trying to rescue her sister, Miss Nellie Hamilton. The two sisters had gone to the bank of the river to while away a few hours with hook and line. They seated themselves upon a boulder overlooking a deep pool of water. Some minutes later the line held by the younger sister became entangled in some brush toward the far side of the pool. She arose and stepped nearer the water and her footing slipped, and she was precipitated into the pool. Knowing that she could not swim, the elder sister sprang in after her, and succeeded in reaching her in time to render assistance, and when she had pushed the girl ashore, for some unaccountable reason (probably cramps caused by the very cold water) she herself sank from sight and was drowned.

In utter helplessness Miss Hamilton saw Mrs. Adkins drown not twenty feet from the shore, but could do nothing to save her. She ran for help, and several persons responded to the call; but the best that could be done was to search several hours for the body, which was found a short distance below where the tragedy occurred.

The body was brought to Pikeville on its way to Mossy Bottom for burial Tuesday morning.

## WOOTEN ARRESTED.

W. C. Wooten, a former merchant of Hellier, Ky., this county, was arrested last Thursday by Sheriff H. Pauley on a charge of having given a worthless check some weeks ago to Hagen, Ratcliff and Co., Huntington, W. Va., for the sum of two hundred and sixty dollars in payment for merchandise purchased of them at that time. Wooten was brought to Pikeville Friday. He was arraigned before the Circuit Court, and without entering upon the case Judge Butler turned the prisoner over to Chief of Police C. C. Clingempeel and C. M. Watts, of Huntington, who were here with requisition papers waiting to take him to West Va. The party left for Huntington Saturday morning.

Mr. Wooten was once a prosperous merchant of Hellier, but about one year ago he met business reverses, and was finally forced to give his stock of goods up to his creditors and retire from business. His son purchased the stock under execution, and is now conducting the business at the same stand formerly occupied by the father.

## NEW BANKING HOUSE.

Last week the First National Bank moved into its newly remodeled quarters, Cor. Main and Central. This is now in every way a modern banking and office building. The banking department is not yet completed, lacking some interior glass work. The great Mosler safe has been moved into the fireproof vault, which at night is also locked behind a massive solid steel door weighing 13000 pounds. This vault is a two story arrangement, and is lined with thick steel slabs that would be well nigh impossible to blast through with the most powerful explosives.

The entire remodeling work has not yet been completed, and besides the banking department on the first floor, there will be many elegant offices on the second and third floors. These will be rushed to completion as swiftly as the carpenters can do the work; and the building will then be one of the most magnificent business blocks in Eastern Kentucky.

Little Daughter of Dr. G. C. Bentley, Victim of Measles.

After a sickness of about three weeks, Mary Kathryn, the little daughter of Dr. and Mrs. G. C. Bentley died at their home on Second street Monday evening at 9:30. The direct cause of the child's death was a compound of measles and cold. Dr. Bentley was at Knoxville, Tenn., when he received word last Friday that the child was critically ill, and could live but a very short while. He hastened homeward, only stopping at Catlettsburg to engage the services of a physician of that city to come to Pikeville and advise with the local doctors who were in attendance at the child's bedside. But every precaution was in vain, and the light of the little life went out after every effort had been put forth to save it.

The little body was laid to rest in the Pikeville cemetery Wednesday afternoon, after the funeral services, which were held from the First Methodist church, Rev. T. J. Riggs officiating. She was twenty-three months old.

## REMARKABLE HEN.

The Connolly hotel, J. N. Hamilton, Prop., has produced a most wonderful hen. This hen is a Black Minorca, two years old, and lays two eggs a day, and has very industriously kept up this practice for eighteen months. Mr. Geo. B. Martin, of Lexington, who has been stopping with Mr. Hamilton for several days, learned about Bessie, and after having the truth of Mr. Hamilton's assertion demonstrated to his own eyes, he wanted to buy her, but she had so faithfully kept up the old two-egg-a-day game when all other hens had quit for higher wages. Mr. Hamilton did not wish to part with her. Yet the Lexington man was bent upon owning Bessie, so at length a bargain was struck, and Mr. Martin proudly boxed her up and shipped her home to the Blue Grass.

## MISS SARA WILLIAMSON VICTIM OF FEVER.

men of to-day have just such symptoms as you describe. What does it mean?

Look at me. I am eighty-two years old. Sound as a nut. Tough as hickory. Do not know what it is to be tired. While I cannot do as much physical work as I used to when a young man, I can do a great deal. Probably twice as much as the average young man of to-day.

What has kept me so strong and well? I will tell you. I do not use tobacco. I do not use alcoholic stimulants. I do not use tea or coffee habitually. I go to bed early. I get up early. I am always doing something; something that occupies my body and mind. I love to work. I take a cold water towel bath every morning, winter and summer. It is these things

that have kept me well and strong. You could be just as well and strong as I am if you would do as I do.

You may ask, do I never get sick, have I never had occasion to take medicine at all? Yes, I have got sick. Sometimes I feel a little touch of climatic trouble, like cold, malaria, slight catarrhal symptoms, but my only medicine is Peruna. I always keep a bottle of Peruna in my desk in my office. Once in a while I take some. I do not take it habitually. Take it only when I feel a little out of sorts. One swallow will perhaps be all that will be necessary, but it is always handy by.

It is a sorry sight to see the young men of to-day begin to peter out physically when they ought to be in the glory of their manhood and the height of their vigor. Eat plain food. Live frugally. Give up all weakening habits. Live as God intended you to live. Take Peruna when you do not feel as well as usual.

If you want me to I will send you a book which will tell you a great many more things about yourself and about matters that may be of great value to you. Enclose a two-cent stamp for postage and the book will be sent in a plain wrapper and you will not be troubled with any follow-up letters or advertisements. PERUNA IS FOR SALE AT ALL DRUG STORES.

SPECIAL NOTICE—Many persons are making inquiries for the old-time Peruna. To such would say, this formula is now put out under the name of KA-TAR-NO, manufactured by KA-TAR-NO Company, Columbus, Ohio. Write them and they will be pleased to send you a free booklet.
